Insurgencies arise when a minority in a population organizes to resist or overthrow the governing authority by engaging in psychological and asymmetric warfare. The clandestine nature of insurgencies, compounded by the difficulty in identifying insurgents as separate from the general population, make this form of warfare extremely effective in leveraging limited assets against forces of a greater power. Conventional warfare doctrine and forces are completely unsuited to combating an insurgency and, left undeterred, an effective insurgent force will eventually defeat even the largest opposing conventional force. TridentCMG personnel possess extensive education, training, and experience in developing and implementing successful counterinsurgency (COIN) operations around the world. Our comprehensive COIN training provides (i) an academic study of the history and causes of insurgencies as well as successful COIN case studies, (ii) practical instruction on establishing an effective COIN intelligence network, (iii) organizing and training efficient and highly-effective COIN-disciplined Special Forces, and (iv) creating an effective liaison between those Forces and Law Enforcement agencies.

REQUIREMENTS

TCMG LEADERSHIP:

CLASS SIZE:

PREREQUISITES:

TRAINING DURATIONS:

First Phase:

Second Phase:

Third Phase:

Fourth Phase:

TRAINING FACILITIES:

LOGISTICS:

ACCOMMODATIONS:

COURSE OF INSTRUCTION

FIRST PHASE—HISTORY, CASE STUDIES & LESSONS LEARNED ON INSURGENCIES AND COUNTERINSURGENCY OPERATIONS

SECOND PHASE—EFFECTIVE INTELLIGENCE COLLECTION & ANALYSIS

THIRD PHASE—TRAINING COIN-DISCIPLINED SPECIAL FORCES

FOURTH PHASE—MANAGING A COORDINATED COIN RESPONSE
